FEATURES

Quality in every fibre.

Our top-quality awning fabrics are made from 100% spundyed branded acrylic and guarantee for the highest functionality.

Long-lasting pleasure guaranteed.

The special finish of the fabric prevents the permeation of water, humidity and dirt. For utmost comfort that you will enjoy for many years.

Reliable quality guaranteed.

Our 5-year guarantee covers the protective function, durability and colour fastness of our fabrics. More information at www.sattler-elements.com

Saving energy naturally.

With an ideally positioned Sattler awning, it is possible to reduce the energy consumption of your air conditioner by up to 80%.

Fabrics as a role model.

Responsibility is what counts. Certification according to the ISO standards 9001:2008 and 14001:2004 as well as the OEKO-TEX® seal are a must. All our products comply with the REACH requirements.

Skin protection guaranteed.

Sattler sun-protection fabrics are tested according to the UV standard 801, the world's strictest testing program. Your skin protection guaranteed.

Simply to the point.

The Sattler Design Selector enables a fast and simple selection process for your choice awning fabric.

Best outdoor fibre

Quality in every fibre

ACRYLIC

Our premium awning fabrics are made from 100% spun-dyed branded acrylic and guarantee top-level functionality.

- Intense colour brilliance
- No fading - colours remain bright and luminous for many years
- High UV fastness, and thus no solidity loss
- Best weather-proof outdoor fibre
- Outstanding dirt and water repellency
- Pleasant textile feeling
- Breathable, no moisture build-up
- Less wrinkles or creases
- Easy installation and cloth change
- No unpleasant flapping noises

Spun-dyed acrylic guarantees optimum weather and light fastness

● The pigments are embedded in the fibre

○ The pigments are bonded to the surface of the fibre

easyCLEAN

Premium shade for generations.

TEXGARD

Perfect and durable protection of your awning cloth thanks to the Texgard Easy. Every single fibre is carefully covered with a protective coating. Our proprietary impregnation prevents the permeation of the fibre by water, humidity and dirt, thus supporting the self-cleaning effect.

Sun-protection fabrics by Sattler offer:

- Outstanding dirt- and fungus-repellence
- High water repellence
- Very good rolling behaviour
- Excellent surface
- Brilliant and durable colours

Skin protection guarantee

Reduce the UV load to your skin
by up to 99%

UV PROTECTION

In recent years, UV radiation has considerably increased. What many of us ignore: we are also exposed to UV radiation in the shade. Choosing a Sattler awning fabric means opting for safe UV protection. For example the skin of a person rated UV type I (red or blond hair, blue eyes and a very fair complexion) has an intrinsic protection time of approximately five to ten minutes. This person risks a dangerous sunburn in the case of unprotected exposure to full solar radiation. Already with a UV index of 40 around 97.5% of the radiation is reflected and absorbed.

UV protection by comparison	UV Index
Sunblocker correctly applied (LSF)	0 - 30
Shade under a tree	ca. 5 - 15
Shade under a sunshade (without special UV protection)	15
Sattler sun protection fabrics	40 - 80
